

Geoinformatica paper extension

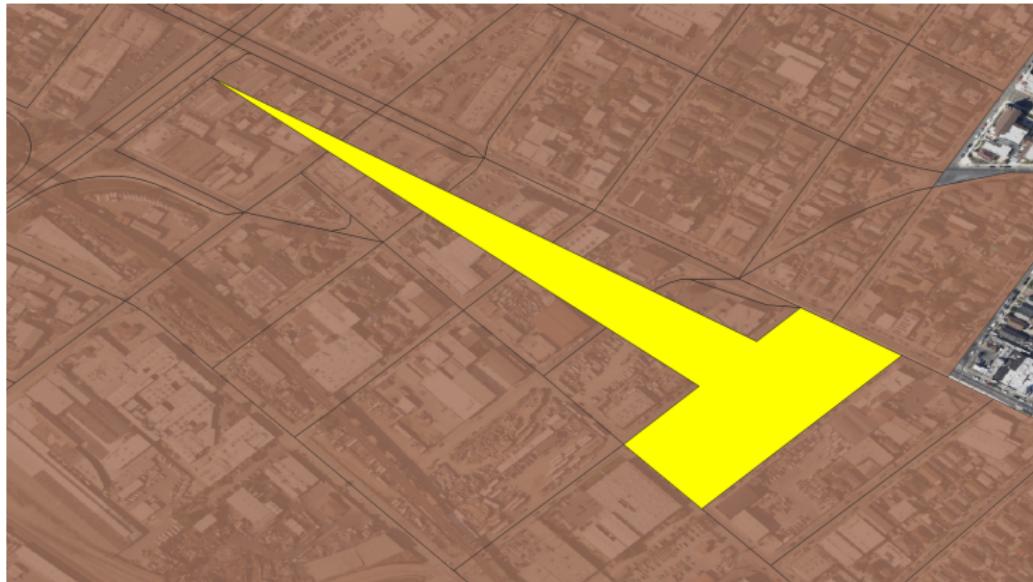

University of California, Riverside

January 23, 2024

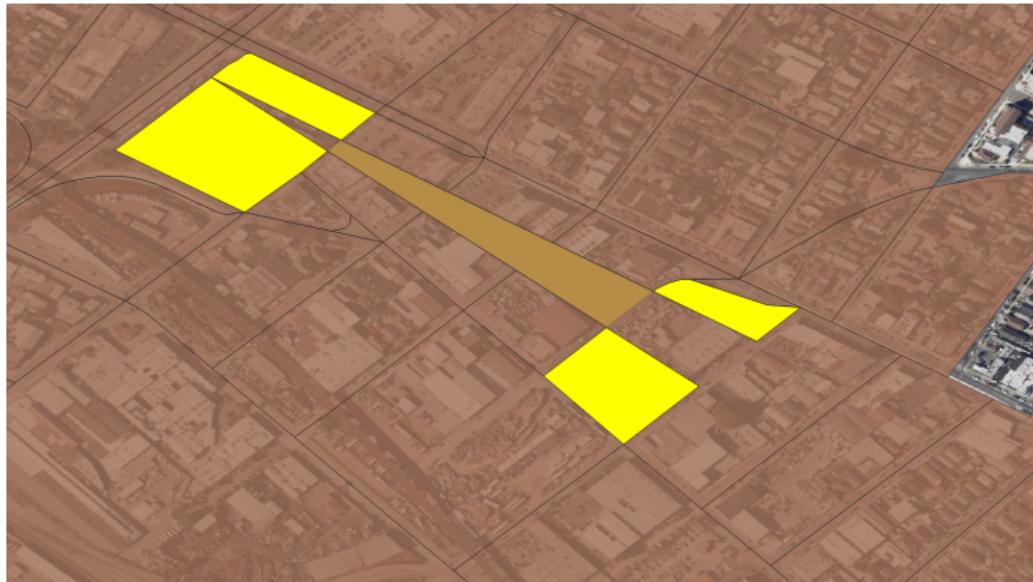

So far...

- ▶ Done with a clean copy of code.
- ▶ Tested with dummy and small datasets.
- ▶ Reading DDCEL's output...

Some invalids polygons...

Some invalids polygons...

Some invalids polygons...

What's next...

- ▶ Define how to manage invalid polygons...
- ▶ Run additional tests with large datasets...
- ▶ Work on KD-tree partitioner (orphan holes?)...
