OVERVIEW **TIME REPORTING** **DETAILED VIEW** **ATTACHMENTS** **COMMENTS** **APPROVAL HISTORY**

Day of Month Position	Total Hours	
2022-04-05	4	Debugging bugs in overlayByLevel function, Collecting and plotting results from MainUS and GADM experiments, Working on Half_edge and Segment serialization.
2022-04-06	4	Running experiments in MainUS dataset, Running experiments in GADM dataset, Reading flock paper, Collecting results from experiments.
2022-04-07	4	Tunning performance experiments with GADM dataset, Fixing bugs in load SDCEL format, Debugging error in performance.
2022-04-08	4	Updating script parameters to run Perf and sdcel2, Tracking bug in save/load SDCEL, Fixing bug during empty cells serialization, Debugging load SDCEL function.
2022-04-11	4	Debugging empty cells issue during SDCEL save, Catching bug during segment merging, Testing load method for individual SDCELs, Working on reports.
2022-04-12	4	Running new set of experiments, Debugging overlay alternative with MainUS dataset, Removing isBorder attribute from Segment and Half_edge classes, Debugging segment generation during overlayMaster function.
2022-04-13	4	Fixing bug during overlayMaster and overlayByLevel, Setting holes correctly during overlay alternatives, Tracking performance with OR and CA datasets, Tuning performance script.
2022-04-14	4	Double checking performance issues, Tracking issue during mergeSegments in CA dataset, Plotting experiments from last results, Collecting results from OR and CA datasets.
2022-04-15	4	Attending privacy location data seminar, Advancing training for staff assignment.
2022-04-18	4	Tuning plots and new experiments for overlay alternatives, Plotting new figures and descriptions on paper, Running experiments for overlay alternatives in 5 biggest states, Sync LaTeX versions of the paper, Completing Tax filing.
2022-04-19	4	Tuning template of the paper and sync with overleaf, Adding section for overlay methods evaluation, Running a set of new experiments with VA and PA datasets, Tuning plots for the new results.
