Time & Attendance Reporting System

UC RIVERSIDE

E-mail Feedback

April 03, 2022 - April 16, 2022 Timesheet

Name	Title	Department	Supervisor	Total Hours
Andres Calderon	GSR	D01003 - Computer Science & Engineering	Vassilis Tsotras	20

OVERVIEW   **TIME REPORTING**   **DETAILED VIEW**   **ATTACHMENTS**   **COMMENTS**   **APPROVAL HISTORY**

Day of Month	Total Hours	
Position		
2022-04-04	4	Tunning scripts for MainUS experiment, Testing scripts and implementation for experiments, Running experiments with MainUS and GADM, Reading flock paper.
2022-04-05	4	Debugging bugs in overlayByLevel function, Collecting and plotting results from MainUS and GADM experiments, Working on Half_edge and Segment serialization.
2022-04-06	4	Running experiments in MainUS dataset, Running experiments in GADM dataset, Reading flock paper, Collecting results from experiments.
2022-04-07	4	Tunning performance experiments with GADM dataset, Fixing bugs in load SDCEL format, Debugging error in performance.
2022-04-08	4	Updating script parameters to run Perf and sdcel2, Tracking bug in save/load SDCEL, Fixing bug during empty cells serialization, Debugging load SDCEL function.
2022-04-11	4	Debugging empty cells issue during SDCEL save, Catching bug during segment merging, Testing load method for individual SDCELs, Working on reports.
2022-04-12	4	Removing isBorder attribute from Segment and Half_edge classes, Debugging overlay alternative with MainUS dataset, Running new set of experiments, Debugging segment generation during overlayMaster function.
